Origins and Development of Chrome Flesh

The Evolution of Augmentation in Shadowrun

The concept of augmenting humans with cybernetic and biological enhancements predates the Shadowrun universe but reaches new heights in its setting. In the early days, cyberware was primarily mechanical—metal limbs, neural interfaces, and sensory enhancements. Over time, advancements in biotech and cybernetics led to more integrated and sophisticated modifications, culminating in what is broadly termed "Chrome Flesh." The development of Chrome Flesh was driven by several factors:

- Military needs: Enhanced soldiers with superior strength, reflexes, and sensory perception.
- Medical breakthroughs: Restorative procedures for injured or disabled individuals, transforming disability into capability.
- Corporate competition: Corporations investing heavily in R&D to maintain technological dominance.
