Understanding the TNCC Certification

What Is the TNCC?

The Trauma Nursing Core Course (TNCC) is a certification program developed by the American College of Emergency Physicians (ACEP) and the Emergency Nurses Association (ENA). It aims to equip nurses with the knowledge and skills necessary to manage trauma patients effectively. The course emphasizes evidence-based trauma care principles, assessment techniques, and critical decision-making skills.

Who Should Take the TNCC?

The TNCC is designed for:

1. Emergency nurses
2. Critical care nurses
3. Pre-hospital care providers
4. Any healthcare professionals involved in trauma care

Typically, certification is valid for four years, after which recertification is required.
