What Is the Hay Job Evaluation Guide Chart?

The Hay Job Evaluation Guide Chart is a structured framework developed by the Hay Group (now part of Korn Ferry) that provides a method for objectively evaluating and comparing jobs across an organization. It focuses on three core factors: Know-How, Problem Solving, and Accountability. These factors are broken down into sub-factors and degrees, which help assign a numerical value or point score to each job. This process results in a clear hierarchy of roles, facilitating equitable pay and career development pathways.

Core Components of the Hay Job Evaluation Guide Chart

Understanding the core components of the hay job evaluation guide chart is essential for accurate job assessment. Let's examine each of these factors in detail.

1. **Routine Problems:** Tasks that involve standard procedures and predictable outcomes.
2. **Complex Problems:** Issues requiring analysis, judgment, and decision-making beyond routine procedures.
3. **Strategic Problems:** Challenges involving planning, forecasting, and long-term thinking.

The evaluation considers the degree of judgment, creativity, and independence needed to resolve problems.

3. Accountability

Accountability assesses the extent of responsibility a role has over resources, decisions, and outcomes.

1. **Financial Responsibility:** Responsibility for budgets, costs, or financial outcomes.
2. **Work Impact:** The degree to which the role impacts organizational goals or customer satisfaction.
