2. **Business-Level Strategy:** Centers on how to compete successfully in particular markets or industries.
3. **Functional-Level Strategy:** Deals with specific functions such as marketing, operations, finance, and HR to support broader business strategies.

Understanding these levels helps organizations align their strategic initiatives across all facets of operation.

Strategic Planning and Decision-Making

The process of strategic planning involves systematic analysis and decision-making to establish long-term objectives and determine the best course of action.

4. Establishing control systems to monitor progress

Effective implementation is often the most challenging phase, demanding strong leadership and organizational flexibility.
